

CDC RUFFIAN

White Milling Oat

A Serious Contender

It outyields its competitors. It's short and hard to knock down. It takes on a defensive stance against crown rust; just the qualities you look for in a prize fighter. Now a favoured variety for a group of oat millers in the western prairies, CDC Ruffian is winning the fight for highest returns.

Highlights

- Market leading yields; up to 114%* of the check
- Good standability, easy to harvest
 - » Short stature, good lodging resistance
- Intermediate crown rust resistance
- Accepted by most millers
 - » Preferred variety of Grain Millers and Avena Foods
 - » Now a preferred variety of Richardson Milling

Insights

"CDC Ruffian is a very strong milling oat variety that performed extremely well on our farm. Short strong straw with very plump kernels and exceptional yield."

- Ken McDougall, McDougall Acres Ltd.,
Moose Jaw SK

"CDC Ruffian has exceeded our expectations in the last couple years under varying weather conditions as to yield, standability and quality. That is why for a milling oat choice I recommend CDC Ruffian to our customers."

- Daryn Woods, Ferndale Farms Partnership,
Rocanville SK

"We sold a couple super B's of CDC Ruffian last year to some of our customers and they loved it. They loved the shorter straw as they were able to push their fertility and come out with higher yields without sacrificing their quality."

- Braden Beaven, Lake Country Co-op,
Whitestar Location

CDC RUFFIAN - White Milling Oat

CDC RUFFIAN AGRONOMIC AND DISEASE DATA

Variety	Yield (kg/ha)	Yield (% of Dancer)	Maturity (days)	Height (cm)	Lodging	Plump (%)	Codema Groat (%)	B-Glucan (%)	Stem Rust	Crown Rust	Smut
CDC Dancer	6478	100%	95	109.8	2.2	88.9	76.6	82.75	I	I	R
Morgan	6913	107%	97	105.4	2	79.7	70.3	4.3	S	S	I

Adaptability

CDC Ruffian is well suited to the western prairies including Alberta and Saskatchewan.

Insights

"CDC Ruffian stands very well and I have seen yields in excess of 150 bu/ac on several occasions. This oat is taking yield to a whole new level."

- Denise Schmidt, National Sales Manager,
FP Genetics Inc.
